

Non Maintained Commercial Lease

Simple commercial fleet finance with the expertise to help you choose or design specialised commercial vehicles to meet your needs.

Leasing your commercial vehicle fleet through FleetPartners frees resources for your business development. You keep control of the maintenance and repairs of your fleet, whilst taking company vehicles off the balance sheet. FleetPartners' qualified experts understand the special needs of light and heavy commercial vehicle operators so they'll make sure you get the right vehicles.

Benefits to business

Access working capital - leasing takes vehicles off your balance sheet so you won't have the burden of owning ageing assets. Plus you'll have access to your cash resources. Ask your accountant for details on the financial advantages of operating leases.

Cost control - we understand commercial vehicles and the industry standards around the costs involved so we can tightly manage the running costs for your fleet.

Eliminate asset risk - we take on the risk and disposal responsibility so you don't have to.

One fixed monthly payment - makes budget forecasting easy. Competitive interest rates will be fixed for the term of the lease.

Free application - one credit application covers all your vehicle requirements for now and as your business grows.

National breakdown assistance - through our network of qualified mechanics to get your vehicles back on the road.

Inject cash back into your business - we can arrange a sale and leaseback of your existing fleet.

Easy administration - our free administration service will even pay vehicle registrations, tolls and process fines.

At a glance

Purpose	Finance your commercial fleet.
Vehicles Covered	Available for new and second-hand light and heavy commercial vehicles valued at more than \$10,000 when leasing starts.
