

Commercial Maintenance Services

KEEP UNEXPECTED COSTS DOWN WHILE MINIMISING YOUR RISK.

Keep your vehicles and machinery humming by utilising FleetPartners expertise, know-how, resources and buying power.

Often controlling maintenance costs is interpreted one dimensionally to mean low repair costs.

We take a broader approach to account for the real and hidden cost of administration, breakdowns, loss of driver time, missed deliveries, logistics, fuel and more.

Managed maintenance options

Whether you own or lease through us, FleetPartners provides managed maintenance service options tailored to your needs, including:

- Full Service Lease
- Budgeted Maintenance
- Fleet Management:

Our Practices

- Utilisation is maximised as scheduled maintenance is performed at predetermined intervals and includes the replacement of key componentry prior to service life failure
- Our Roadside Response Centre is staffed with professionals 24/7. Our goal is to dispatch a service technician within 15 minutes and be on-site within an hour. In many cases we return your vehicle to service in only 2 to 4 hours. And when a breakdown occurs, we'll keep you informed every step of the way.

- Working with our network of approved service providers ensures all services are performed conform to FleetPartners stringent quality customer care agreements and procedures
- Field Support professionals provide a unique oversight of operational standards and delivery of all resources, tooling and inventory to ensure the efficient use of your assets at all times
- Online tooling to provide the information and analysis for informed decision making
- Maintenance practices are aligned to allow for compliance to Regulator's Standards

Our expertise, your location

Prefer to manage your fleet on-site? We can help you assess current operations against commercial practices, identify required talent, process and resource requirements to match with expected workshop outcomes.

Tyre management

National supply agreements ensure we provide coverage when and where you need it.

Administration solutions

Our managed maintenance and tyre management programs combined with our administrative services provides a comprehensive solution from registration through to remarketing and everything in between.
